Or...

***What would your success look like if you made Donald Trump’s birth chart your own TODAY?***

**Content (in case you DIDN’T choose the “Donald Trump” subject lines):**

Dear Magician,

Do you know someone whose life gives you a tinge of envy?

Maybe someone you even admire... *even a lot?*

If you’re human, slowing down and getting honest with yourself, you’ll probably respond with a “Yes”.

This could be a person you know personally. Or it could be a celebrity that reflects values or personality traits you’d love to see developed and recognized in you as well, knowing what that could mean for every area of your life.

Now, what if I told you that you no longer need to envy anyone and ***what-if*** your way through life anymore?

What if I told you that you could make the “unseen forces” behind THEIR lucky streaks in life your OWN?

How? By taking out the BEST elements from – now one, not two, but ***several*** - such people’s natal charts (while leaving out their undesirable traits).

Think about this: Your favourite scientist... actors or actresses... philanthropists... authors... business tycoons... **No one is off-limits.**

The only limit is the sky (and I mean this literally).

So how do you do this? Simple: By harnessing the same planetary energies that potentiated THEIR successes, and making those energies your own.

Now how do you know what planetary energies to look out for?

Again, simple: Start by looking up their birth charts. If they’re a celebrity, their date, hour, minute and place of birth are public record.

So you cast their natal horoscopes and see the houses and signs their planets were at during the time of their births.

You see SUN placement that gives them so much originality, individuality and leadership.

You see where the VENUS placement that gives them their attractiveness and magnetism.

You see their MERCURY placement was that gives them their mental acuity and communicative brilliance.

And then you do this: You pick up the track of the mantra for THOSE planets in THOSE signs from my “Planetary Mantra MP3” collection, and listen to it for 30 days, and then follow my instructions carefully.

And THEN watch what happens... before remembering to pick your jaw from the floor at the changes inexorably happening before your eyes, and writing to me thanking me profusely from head to toe. I won't stop you 😊

PS (a Warning): Do NOT try this is the prospect of “big time” success intimidates you. If you want to still attain success, but in a low-key way, the good news is, there are planetary placements for that too. Simply pick one from the MP3 collection, hold the Talisman appropriate for it, and listen for 30 minutes, allowing the planet's energies in that sign to infuse your being, and your life with possibilities most people wouldn't dare dream of.

Dear Magician,

Okay I will admit. Writing “Donald Trump” in the subject line took courage on my part.

Not because the idea of making his birthday chart your own seems downright stupid and “impossible” (I will show you how it is more than possible, and easier than you can imagine, in just a moment).

But because a lot of you do not like him, nor want to live out his own life's definition of “success”.

The good news is it does not have to be Donald Trump.

It could be anyone you actually \*do\* admire.

Matter of fact, you could take out the BEST elements – the best planetary placements – from anyone's chart, or any NUMBER of peoples' charts, while leaving out the placements that you don't like.

Think of your favourite scientists, actors, actresses, philanthropists, artists, anyone you admire.

The sky is the limit (and I mean this literally).

You can make the planetary placements that ensured their peak-tier lifestyles your own!
